what is your most memorable **CELEBRATION?**

My most memorable celebration has to be the Dare to Dream Soiree that I hosted last November 2018. It was a celebration organized to acknowledge the dreambuilders in our city, all in the spirit of giving

back to a local organization, Raw Beauty Talks. This was a memorable evening for me because it reaffirmed my purpose and my passion for empowering and inspiring women. It marked the day when I realized my contribution to community and how fulfilling it is to build a dream that is focused around leaving a legacy. Everyday since has become a celebration - I never felt more alive and excited about living my Dream!

The moment that I realized that I had a body worthy enough to celebrate was by far the most memorable moment for me. For years, I thought that because I didn't fit the mold of what society deems as beautiful that I didn't

have the right to feel good in my body. Now I know that I am achingly fabulous and my body does SO many incredible things for me aside from looking pretty. For example; breathing, taking me exciting places, letting me hug my friends and the most joyful thing ever, dancing. My top body celebration was posting a video of me dancing in my underwear to Instagram for the campaign #donthatetheshake.

My most memorable celebration is the day I married my husband. The day was truly impalpable. In so many ways it also felt like a celebration of how far we came despite having our first-born daughter at a

young age. 15 years later my husband and I are still together and this year we celebrate a decade of marriage.

In short, life isn't meant to be perfect, and we will never have it all figured out. I feel blessed I've found someone I can "figure things out" with every single day while raising three daughters. Now that's something worth celebrating!

A celebration that stands out to me is my 28th birthday. Around this time, I experienced my Saturn Return. If you're not familiar with this, it is an astrological transit that occurs when the planet Saturn returns

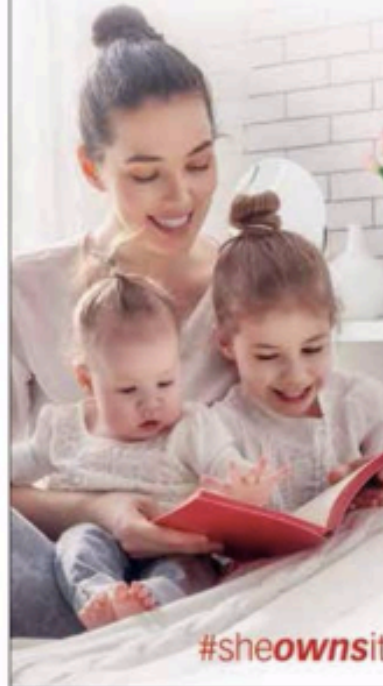

to the same place in the sky that it occupied at the moment of a person's birth. Although this happens around the age 29/30, the influence of the Saturn return happens around age 27/28. This was a pivotal year in my life full of many changes, advances, setbacks and new beginnings.

When it comes to birthday celebrations, I usually keep it low key. However, my 28th deserved something more. I surrounded myself with just over 80 of my closest friends & their friends throughout the evening of Thursday, May 14th 2015. It was the perfect celebration of my birthday and introduction to my Saturn Return. I'm coming up to my 30th birthday this year so I think it will be a memorable one!
